

Annamalai Muthiah

Head of Documentation & Training | AI Enablement | Technical Content & Learning Programs for Government & Enterprise
Abu Dhabi, UAE · +971-589004341 · annamalai21m@gmail.com · [LinkedIn](#) ·

SUMMARY

Documentation and training leader with over 20 years of experience in developing content and learning functions from the ground up for organizations in AI, government, banking, healthcare, and enterprise software. At Presight (a G42 company), I advanced from Technical Writer to Senior Manager and currently lead the Documentation and Training team within the Applied Intelligence Academy. This CXO-powered business unit provides AI training and enablement for government and enterprise clients.

I manage teams of writers and trainers, oversee the systems they use, and deliver client-facing technical documentation, instructor-led and virtual training, and microlearning modules. AI-augmented workflows are standard practice within my teams. I am currently pursuing the IAPP AIGP (AI Governance) certification and the PRINCE2 Foundation certification to formalize the governance and delivery aspects of my work.

SKILLS

Training & Enablement	Training program design and delivery, ILT/VILT facilitation, instructional design, curriculum architecture, microlearning, assessment design, train-the-trainer, client onboarding and product adoption, cohort tracking and outcome reporting
Documentation	User, admin, and API documentation; SOPs and policy/process/procedure sets; release notes; online help; single sourcing; version control and peer review; regulatory and audit-ready documentation
AI-Augmented Content	AI-assisted authoring and review workflows, prompt design for content teams, AI narration and video production. ElevenLabs, Synthesia, Canva, NotebookLM, ChatGPT, Claude, Microsoft Copilot, Gamma
Content Strategy & UX	Content style guides, voice and tone, UX writing and microcopy, information architecture, content audits, user journey mapping, copy decks, template systems
Platforms & Systems	SharePoint administration, Power BI, Power Automate, Power Apps, MadCap Flare, Confluence, JIRA, Camtasia, Git, HTML, Documentum, MS Office, ClickUp
Leadership & Delivery	Team leadership and mentoring, cross-functional and executive stakeholder management, project lifecycle ownership, Agile and Waterfall delivery, process design, AI governance awareness (AIGP track)

EXPERIENCE

Presight (a G42 company) · Abu Dhabi, UAE

Mar 2018 – Present

Senior Manager, Content Strategy · *Applied Intelligence Academy*

Lead Documentation and Training within the Applied Intelligence Academy, a CEO- and COO-backed business unit reporting directly to the CXO level that owns recurring client training revenue and delivers AI enablement across Presight's government and enterprise accounts.

- Own end-to-end delivery of client training programs and technical documentation for UAE government and public sector AI platforms, from scoping and curriculum design through facilitation, assessment, and outcome reporting.
- Lead a team of technical writers and trainers across both functions, setting standards, review cycles, and capability plans; carried the full team intact into the Academy structure.
- Embed AI-assisted authoring, review, and media production into team workflows so that documentation and learning content ship faster without loss of accuracy or voice.
- Lead selection and rollout of in-house LMS as the Academy's learning platform, migrating courses and onboarding clients and internal learners, with completion tracking and reporting now running through the LMS instead of spreadsheets.

Senior Manager, Documentation & Training

- Led end-to-end delivery of documentation and training programs for large-scale government and public sector client projects in the UAE, managing scope, stakeholder engagement, timelines, and quality assurance.
- Architected a centralized documentation library covering 10+ AI and enterprise platforms, establishing version control, peer review cycles, and release tracking that reduced content retrieval time and supported regulatory audit readiness.
- Designed an end-to-end training tracking system covering schedules, training plans, assessment design, and feedback collection, with live Power BI dashboards visualizing cohort progress, completion rates, and outcomes for management.
- Built a departmental SharePoint ecosystem from the ground up: project management hub, knowledge base, and HR tracking with Power Automate and Power Apps automations used daily by 100+ team members.
- Produced microlearning videos for clients to drive feature adoption, combining scripting, screen capture, and AI-generated narration into self-serve learning assets at scale.
- Built a modular template system and living style guide adopted across multiple product teams, eliminating redundant content creation and enforcing brand and voice consistency.

Wells Fargo (via Populus Group) · San Francisco, CA

Jun 2016 – Dec 2016

Content Strategist · continuation of the Wells Fargo engagement from Cognizant (Nov 2014 – Jun 2016)

- Developed content strategy and UX copy for banking app launches across smartphone, desktop, and Apple Watch, partnering with Legal, UI/UX, and Product to meet compliance and accessibility standards.

Cognizant Technology Solutions · United States

Jan 2009 – Jun 2016

Senior Content Strategist / Technical Writer, Manager

Seven-year engagement across six Fortune 500 client sites; onsite documentation lead at each, working directly with executive stakeholders.

Wells Fargo · San Francisco, CA

Nov 2014 – Jun 2016

- Scoped, developed, and delivered UX content for the launch of the bank's Smartphone, Tablet, Desktop, and Apple Watch applications, collaborating with UI/UX, Product, Legal, and Business Analysis teams.
- Drafted UX content meeting accessibility requirements and in-language translation standards with cross-functional global teams.

Promontory Financial Group · Washington, DC

May 2014 – Oct 2014

- Created Policy, Process, and Procedure documents for Corporate Technology, IT Security, and Server Maintenance to support audit readiness; built a SharePoint documentation repository and template system adopted by IT Infrastructure.

Aetna-PayFlex · Chicago, IL

Apr 2012 – Apr 2014

- Developed high-stakes IT documentation including the Disaster Recovery Plan, Systems Monitoring Server Listing, Capacity Planning Report, and Software Currency Document; version-controlled and archived IT artifacts in SharePoint for compliance.

Invensys / Schneider Electric · Lake Forest, CA

Oct 2010 – Mar 2012

- Onsite project lead managing multiple concurrent documentation projects across globally distributed teams; handled scope changes, risks, and contingency planning, and streamlined documentation processes across project areas.

American Express · Phoenix, AZ

Sep 2009 – Oct 2010

- Created training materials and question banks for an Enterprise Architecture program deployed organization-wide, collaborating with Software Architects on technical diagrams in Metastorm ProVision.

iQor · DHL · New York, NY · Scottsdale, AZ

Jan 2009 – Jul 2009

- Investor, auditor, and employee documentation with top management (iQor); Service Appreciation Documents for transitioned and sunset services (DHL).

Cognizant Technology Solutions · Chennai, India

Nov 2006 – Dec 2008

Senior Technical Writer · Client: Pfizer (Chennai and Sydney)

- Managed and mentored a team of 27 technical writers on a high-compliance pharmaceutical program, building team capability and maintaining delivery standards across a multi-site engagement.
- Drafted 120+ SOPs with Process Owners and ran review and approval workflows in Documentum; designed functional and technical document templates and led document control to client style guidelines.

AdventNet Inc. (now ZOH0 Corp) · Chennai, India

May 2001 – Mar 2005

Senior Technical Writer

- Produced complete documentation sets (User, Admin, Developer, and Installation Guides, Release Notes, README) for the flagship Web NMS and ManageEngine platforms.
- Owned marketing strategy for the Applications Management product line for over a year: release communications, web content, prospect collateral, and search optimization of product pages. Drafted test cases and test plans for QA.
